

Veralite[®] - Stocking and handling

Stocking of sheet :

Veralite[®] should be placed on flat pallets, with a size equal to the sheet dimension.

Veralite[®] must be stocked indoors, sheet and protection material may not be exposed to sun and rain.

If vertical stocking is required, sheets must be in an upright position and must be supported over the complete length.

Handling of sheet :

It is advised when handling, not to slide the sheets over each other to avoid scratching.

All above information is based on current knowledge and experience. The data does not imply any warranty from the manufacturer towards third parties. Users should consider the above data as a guideline and gather additional information, to make independant decisions regarding the proper use, disposal, safety towards other parties and the protection of the environment.
